

# International Spring School for Early Career Researchers in Life Sciences

## Socially Engaged Research in Life Sciences

**9<sup>th</sup> of April to  
10<sup>th</sup> of April 2024**  
9-12 a.m. each day

### Discover the potential of socially engaged research!

There is a growing interest in collaborative and interdisciplinary research for addressing many global challenges that societies are facing nowadays. Early Career Researchers can and should play a key role in addressing these challenges and breaking the traditional barriers of academic research by better aligning their research with societal needs and wants.

With our International Spring School you will be given an overview of the potential and challenges of socially engaged research and you can explore individual approaches in greater depth as well as learn about interesting methods for enhancing socially engaged research in various workshops and sessions.

Our International Spring School takes place online via Zoom in English and is free of charge.

If you are interested, please register on the following portal by **4<sup>th</sup> of April 2024**: **eventbrite**

After registration you will receive further information and access. If you have any questions, please do not hesitate to contact us:

[arjan-steven.de-groot@geo.uni-halle.de](mailto:arjan-steven.de-groot@geo.uni-halle.de)

#### Main topics are:

- Introduction of socially engaged research
- Expectations regarding socially engaged research
- Challenges and limitations when applying the concept
- Methods and toolkits for socially engaged research

We look forward to welcoming Master's students, PhD students and post-docs who want to expand their knowledge of socially engaged research.
